

Simple Tools for Smart Teams

Running a small business means wearing a lot of hats. You track sales, manage your team, handle customer questions, and try to plan ahead — all at the same time. Nexbridge Solutions builds software that takes some of those hats off your head and puts them on autopilot.

What We Do

Nexbridge is a project and team management platform built for companies with between five and two hundred employees. You can track tasks, share files, set deadlines, and get reports without ever opening a spreadsheet. Everything lives in one place, so your team always knows what's happening and what needs to be done next.

Our customers range from marketing agencies to light manufacturers. Most of them switched from sticky notes, email threads, and disconnected apps. They tell us the biggest win is simply knowing, at a glance, whether a project is on track.

Key Features

- Task boards that update in real time as your team makes progress.
- Automatic weekly reports sent directly to your inbox every Monday.
- File storage with version history so you never lose an old draft.
- A mobile app that works even when you are offline.
- Time tracking built into every task — no separate timer app needed.

Our Plans

We offer three plans so you can pick what fits your team right now and upgrade later if you grow.

- **Starter:** \$29 per month for up to five users. Includes task boards, file storage, and email reports.
- **Business:** \$79 per month for up to twenty-five users. Adds time tracking, custom fields, and priority support.
- **Enterprise:** Custom pricing for larger teams. Includes single sign-on, audit logs, and a dedicated account manager.

Every plan starts with a thirty-day free trial. You do not need a credit card to sign up. If you decide Nexbridge is not right for your team, just cancel before the trial ends and you will not be charged.

Getting Support

Our support team is based in Stockholm and works Monday through Friday from eight in the morning to six in the evening Central European Time. You can reach us by email, live chat, or phone. We aim to reply to all questions within one business day. For urgent technical problems, our response target is two hours.

We also publish a help centre with step-by-step guides, video tutorials, and answers to the most common questions. Most users find what they need there before they need to contact us directly.

Getting Started Today

Go to nexbridgesolutions.com and click the Start Free Trial button. Enter your email address, create a password, and tell us a little about your team. The whole signup takes about three minutes. You will land on a sample project so you can see how everything works before you add real data.

If you have questions before signing up, send us an email at hello@nexbridgesolutions.com or book a fifteen-minute demo call from our website. We are happy to walk you through the platform and answer any questions about whether it is a good fit for your team.
